Objective

.NET FullStack Developer with over 1.5+ year of experience, specializing primarily in backend development using .NET, ASP.NET Core, and MVC. I have strong expertise in creating Web APIs and ensuring clean, efficient code. While I have experience in frontend development with Vue.js and React, my core strength lies in backend development. I am skilled in leading projects, collaborating with cross-functional teams, and utilizing Scrum methodologies for efficient and timely delivery. I also have experience working with Jira for project management, with a focus on continuous improvement and high-quality code.
